**IGCSEs (Cambridge International):** 5 subjects at Grade A–B, including English (A) and Mathematics (A)  
**WAEC:** English (C), Mathematics (B)

## RELEVANT COURSEWORK

**Software Development:** Python, Flask, Node.js, Express, JavaScript

**Web Technologies:** HTML, CSS, Responsive Design, GitHub deployment

**Data & Automation:** Web scraping with Selenium and BeautifulSoup, stock price tracker with email alerts

**Cloud & Tools:** Git, APIs, Google Sheets automation

## INTERESTS

- Technology
- Learning new things
- Automotive Innovation
- Fitness
- Travelling

## PROJECTS

### Stock Price Tracker | Python, SMTP

- Built a tracker that monitors Tesla stock prices.
- Configured email alerts when prices rise above a defined threshold.

### Responsive Website | HTML, CSS, JavaScript

- Designed and deployed a personal website with responsive layouts.
- Showcases projects and adapts across devices.

### Blog Application | Python, Flask

- Developed a blog platform with user authentication and content management.
- Currently creating a new version using Node.js and Express for improved scalability.

### GitHub Portfolio | Python, Web Development, AI/ML

- Maintains a portfolio of projects including web apps, automation scripts, and AI/ML experiments.
- Some in-progress projects are not yet published.

## EXPERIENCE

### Industry Placement | Scenariio, UK | 2025 – Present

- Collaborating with team to learn and apply tools such as Home Assistant, Node-RED, and Grafana.
- Supporting integration of smart building technologies and gaining hands-on industry exposure.

### Volunteer Retail Assistant | British Heart Foundation, UK | 2024 – 2025

- Assisted customers and supported daily shop operations.
- Developed teamwork, communication, and problem-solving skills in a fast-paced environment.
